PROFESSIONAL EXPERIENCE

Open Source Contributor

[Appflowy.io](#) | Remote

Nov 2024 - Present

- Enhanced Appflowy with multi-list indentation, text-to-title shortcuts, and bug fixes for space deletion, database display, and time settings. Updated delete button design and added cover image cleanup feature.
- Created integration tests and reported issues on the Kanban board for improved project tracking.

Lead Developer

Live Carts (Shopify App) | Remote

Mar 2024 - Present

- Architected and developed a Shopify app for gathering user analytics, utilizing Ruby on Rails for backend and React for frontend
- Implemented multi-database architecture, ensuring data isolation and security for each customer. Integrated complex data analytics features to provide valuable insights for Shopify store owners

Mobile Application Lead

[Letmegrab Pvt Ltd](#) | Surat, IN

[GitHub](#)

Mar 2023 - July 2024

- Led a 4-person mobile team to develop a marketplace app (Letmegrab) with Amazon-like functionality, spanning customer, seller, and admin interfaces.
- Enhanced engagement with an Instagram-style story feature and optimized product discovery through a dynamic 3-level filter system.
- Translated intricate Figma designs into a seamless UI/UX across platforms, prioritizing usability and design precision.
- Utilized Flutter and Kotlin for advanced features, including BLE, widgets, WebSockets, and GraphQL, and led a successful e-commerce project migration with redesigned admin functionalities.

Mobile Developer

Freelance | Remote

Jan 2023 - Present

- Developed [Budlinks](#) a social media app fostering connections and community engagement, increasing user interaction by 40%
- Created [Activatest](#) an online testing platform facilitating efficient assessment and evaluation, serving over 1000 users
- Designed [Amtiss](#) a heavy machinery management app, optimizing operation and maintenance efficiency by 30%

Jr. Mobile Developer

[Mtzinfotech](#) | Surat, IN

Aug 2021 - Mar 2023

- Contributed to many diverse projects as a Junior Flutter Developer, including chat apps, parking apps, and online testing platforms
- Gained expertise in app deployment to both Play Store and App Store, ensuring smooth release processes
- Developed proficiency in Flutter, Android, and iOS development through hands-on experience with various project types
